“TIRUPATI” BRAND SOLID POLYMER SHEETS

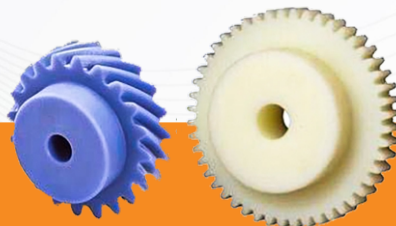

“TIRUPATI” polymer sheets are manufactured on the futuristic sheet extrusion line of the world-renowned Italian company. The quality of “TIRUPATI” polymer sheets, therefore, matches international standards. Few sheets lines are from reputed Indian and Chinese manufacturers and the product excels in quality.

"TIRUPATI" sheets are made out of specially formulated prime virgin raw materials with a combination of wide colour range, excellent surface finish, customised dimensions, and uncompromising quality. Strictly adhering to international specifications, "TIRUPATI" naturally has become the choice of leading industries, fabricators & consultants.

HDPE Sheets are made from RAFFIA, PE80, PE100 grades exhibit hightoughness, high chemical resistance, Abrasion resistant, resistance to stress cracking, good thermoforming properties and is extremely versatile.

PP Sheets are made from Impact Co-polymer, Homopolymer exhibit superior impact strength, excellent chemical resistance, High heat stability, Good Corrosion resistance.

HIPS Sheets are made from vacuum forming Grade High impact polystyrene which is amorphous thermoplastic material made of modified version of General Purpose Polystyrene which exhibit very high impact resistance and stiffness.

OUR RANGE

Polyethylene sheets

HDPE, LDPE, LLDPE, HDPE Forming sheet,
Ortho Sheets

Standard Colours: Natural and Black

Extruded 0.5mm to 3mm up to 1300mm Width.

Extruded 4mm to 20mm up to 1500mm Width.

Block Sheets 25mm to 100mm 1000mm/1250mm Width.

Application:

Thermoformed articles, advertising
industry and Automobile parts.

Application:
Automotive trays, Crate
partitions, HDPE storage tanks,
engineering components
and Orthopaedics.

High Impact Polystyrene:

HIPS Sheets

Extruded 4mm to 8mm up to
2000mm Width

Polypropylene Sheets:

PPCP, PPH, PPGL (Fabric backed sheets)

Standard Colours: Natural, Pebble grey,
Dark grey.

Extruded 0.7mm to 5mm up to 1500mm Width

Extruded 6mm to 30mm up to 2000mm Width

Fabric backed sheets 2mm to 5mm 1350mm /
1500mm width and 10000mm rolls.

Block Sheets 40mm to 100mm 1000mm/ 1250mm Width.

Application:
Chemical Tanks, Trolleys,
Picking plants, cutting boards,
Orthopaedics, Advertising
industry and medical
equipment's
